### The Federal Lands Highway Program in

**Wisconsin.** Considered by many to be the  
jewel of Lake Superior, the Apostle Islands  
National Lakeshore comprises 21 islands  
and 12 square miles of mainland and host  
a unique blend of cultural and natural  
resources, in addition to many recreational  
opportunities. The Little Sand Bay area of  
Apostle Islands National Lakeshore is one  
of the few areas that can be reached by  
car, and it is a popular for day trips.

A recently completed project consisted  
of realigning a two-mile stretch on both  
Little Sand Bay Road and Shaft Street,  
constructing a new parking area,  
overlaying the Visitor Center Loop, and  
reconstructing Meyers Road. These  
rehabilitated entryways also provide easier  
and safer access to the ferry operations

that shuffle passengers between the main-  
land and the numerous islands. Modeled  
after this successful venture, transporta-  
tion is a key element of the "First Annual  
Centennial Strategy for Apostle Islands  
National Lakeshore," published in August  
2007 and completed in conjunction  
with the National Park Service's 2016  
Centennial Initiative.
